What the Boll Weevil Did .- A. B Patterson, general manager of the Meridian, Miss., Light & Railway Co., was in New York recently and in talking about improved conditions in his section of Mississippi, said:

"We have come through the last year fairly well, and if everything goes all right we will soon be back to normal in the Meridian district. Our farmers are at last grasping the idea of diversified products, and this has caused a great change in local conditions. Do you know that only a few years ago Meridian sent out to other markets every week more than \$500 in cash to purchase butter, the farmers not being able to suuply themselves, let alone the city. Now creameries have been established in and around Meridian, and instead of chipping in butter, we are sending and around Meridian, and instead of shipping in butter we are sending out large amounts each week. The same thing is true of vegetables. It looks are there are substantially looks are substantially looks. 25c and 50c. \$1.00 bottle holds has not been long since substantially all vegetables sold in Meridian were raised on truck farms in the vicinity of the city, and quite a good amoun is shipped to other markets."

Story of a Ten-Cent Bale.—In September of last year the Herald was wide-awake trying to find buyers for day's work. Try for a set. cotton at ten cents a pound. It was successful in finding purchasers for about 40 bales. The editor of the Herald wrote about twenty of the large northern and western dailies setting in it. Among those who bought through the editor's solicitation was Mr. Clark M. Huston of Iowa. Mr. Huston had read the letter in the Chicago Tribune. On Tuesday afternoon of this week it was the editor's pleasure to sell Mr. Huston's cotton for eleven and the control of the case manifold ailments unless release ed. Dizziness, spots before the eyes, blackness and a miserable feeling generally are indications that you need Dr. King's New Life Pills. Take a dose tonight and you will experience grate-life the collection of STATE, COUNTY, SCHOOL and LO-CAL TAXES, for the fiscal year 1915, without penalty; after which day ONE PER CENT penalty will be added to all payments made in the month of JANUARY, 1916, and TWO PER CENT penalty for all payments made to the collection of the collection of the case of the case of the collection of the case of the case of the collection of the case of eleven and three-quarters per pound, which price will net Mr. Huston more than he would have received from a Thus Mr. Huston is benefited and a deserving but poor tenant received \$20 more than the market price of his cotton. That is the sort of co-operation that men with capital can give to others in time of stress. Everybody knew that cotton must ultimately advance, but thousands of men could not profit by it because they had no capital—Manning Herald. Manning Herald.

— The decision of Bulgaria, the 12th nation to enter the war, to join the ranks of the belligerents on the side of Germany, Austria and Turkey was reached only after a diplomatic battle waged for months between representatives of the Teutonic allies and the quadruple entente.
